PROFESSIONAL SUMMARY

Fresh Mechatronics and Industrial Engineering graduate from CUET (CGPA 3.26/4.00) with hands-on industrial training in automation, robotics, PLC systems, CNC machining, production control and quality management. Passionate about Industry 4.0, smart manufacturing and supply chain optimization with strong analytical and problem-solving skills and a research background in computer vision and machine learning.

SKILLS

Technical: Python, Computer Vision & Machine Learning, PLC, CNC Operation, Pneumatic & Hydraulic Systems, SolidWorks, Proteus (Circuit Design), Excel, MS Word, PowerPoint

Core Competencies: Supply Chain (Procurement) Operations & Logistics, Manufacturing Process Optimization, Lean Manufacturing, Six Sigma, End-to-End Project Ownership, Data-Driven Decision Making, Cross-Functional Collaboration, Team Leadership & Management

Languages: English, Bangla

EDUCATION

BSc in Mechatronics and Industrial Engineering 2022 – 2026

Chittagong University of Engineering & Technology (CUET) | CGPA: 3.26 / 4.00

Higher Secondary Certificate (HSC) 2020

Holy Cross College, Dhaka | GPA: 5.00 / 5.00

Secondary School Certificate (SSC) 2018

Motijheel Govt. Girls' High School, Dhaka | GPA: 5.00 / 5.00

INDUSTRIAL TRAINING & ATTACHMENT

Industrial Attachment – Walton July 2026

- Calculated cycle time and proposed 5S implementation ideas for the battery manufacturing section,
- Gained hands-on training in lead-acid battery manufacturing, including Red Tagging (5S), VRLA battery production and quality control (QC), gained exposure to SOP based production and quality practices

Industrial Attachment – BITAC (Bangladesh Industrial Technical Assistance Centre) Dec 2025 – Jan 2026

Industrial Tour – Shikolbaha Power Plant June 2025

THESIS & RESEARCH

- Thesis:** Vision-Based Human Detection and Safety Control System Using ML for Collaborative Robots in Industry 4.0
- Research:** Defect detection using machine learning; remaining useful life (RUL) prediction using machine learning
- Projects:** Pick and Place Robot; Home Automation System using ESP32

CERTIFICATIONS & EXTRACURRICULAR ACTIVITIES

- Python Programming – Edge Project, Bangladesh Computer Council
- Machine Learning Internship – CodeAlpha
- Creative Secretary – CUET Film Society
- Dining Manager – Sufia Kamal Hall
